DIGITAL COMPETENCES IN THE FRAMEWORK IN PRACTICE NEWSLETTER MAY 2016

SUMMARY OF THE SECOND MEETING OF THE DC TEST PROJECT

The second management meeting took place in A Coruña (Spain) on 18-19 April 2016 and it was hosted by Integra Consultoría SL.

The meeting focused on the E-learning platform and on the design of the online courses for trainers and learners, along with the different levels of competences based on vocational training (Outputs 3 & 4).

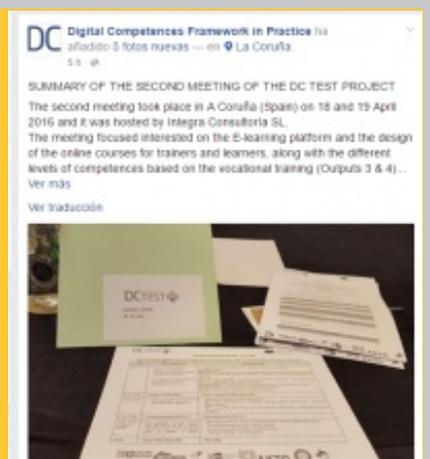

Date and place chosen for the third meeting: 26-27 September 2016 in Arezzo (Italy).

E-Learning Training Platform

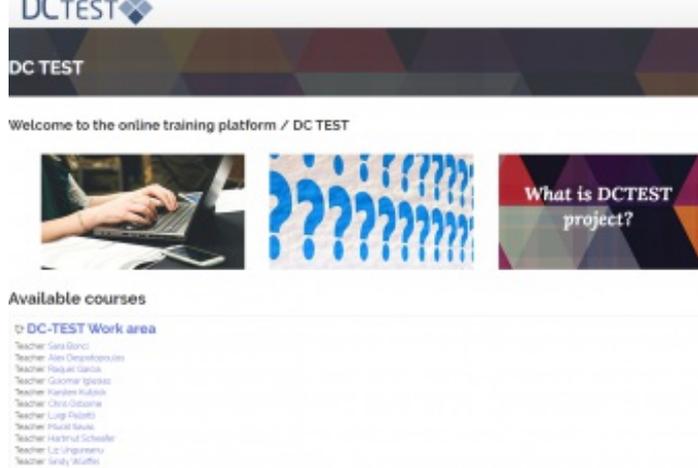

The DC Test team is currently working on The E-learning training course for trainers (Output IO3) and trainees (Output IO4).

The DC TEST course will be divided in 4 levels, in order to be able to address a broader audience:

- a. Foundation: level 1
- b. Intermediate: level 2 & level 3
- c. Advanced: level 4

The project will also create a manual to guide the trainers and, later on, the schools and entities who wish to implement the DC TEST courses.

If you are interested in a training opportunity in the field of Digital Competences, email us at marketing@integracoruna.com/ manager@integracoruna.com. Teachers and students are encouraged to take part in the fully-funded DC TEST courses starting from August! If interested, email us and we will keep you informed, so that you can apply as soon as the opportunity becomes available.

The screenshot shows the DC TEST online training platform. At the top, it says "DC TEST" and "Welcome to the online training platform / DC TEST". Below this, there are three images: a person using a laptop, a grid of blue question marks, and a red box with the text "What is DCTEST project?". Underneath the images, there is a section titled "Available courses" with a sub-section "DC-TEST Work area" listing several teachers: Sara Dorco, Alex Dergelopoulos, Haskali Gaskal, Gabor Gabor, Karim Kubicki, Chris Osborne, Luigi Pirelli, Harald Seuss, Harald Scheller, Liz Spigurno, and Wendy Kuffler.

ONLINE QUESTIONNAIRE -DIGITAL COMPETENCES

Integra Consultoría (Spain), together with the DC TEST partners, AKTO (Greece), Arezzo (Italy), IHK (Germany), Gazi University (Turkey) and Gecko (UK) are in the process of analysing the results of the DC TEST online survey on digital competences.

120 stakeholders from Spain, Italy, Greece, United Kingdom, Germany and Turkey were consulted during the months of March and April to help the DC TEST partnership define which skills and competences are the most valuable in three different profiles:

1. Communication and social marketing
2. Digital Touristic management
3. Digital Tour Guide

The results of the DC TEST consultation are to be published by the end of June.

If you were one of the stakeholders involved in the survey, the DC TEST partnership would like to use this opportunity to thank you for your input!
