DIGITAL COMPETENCES IN THE FRAMEWORK IN PRACTICE
Newsletter March 2017

SUMMARY OF THE FOURTH MEETING DCTEST PROJECT

The fourth meeting took place in Oldenburg (Germany) on 14-15 March 2017 and it was hosted by BNW. The participants were representatives from the partner organisations: Academia Postal (Spain), IHK (Germany); Gazi University (Turkey); AKTO (Greece); Gecko (United Kingdom) and Integra Consultoría (Spain). Arezzo Innovatione (Italy) was involved in the meetings via online.

The meeting focused on the implementation of the Online Training of Trainers (IO3) and the feedbacks provided by the participants. It was also discussed the Online Training on Digital Competences (IO4), the dissemination plan, the Methodological Guide Handbook (O5) and the Digital Competence Certification (O6).

Date and place chosen for the last meeting:
3-4 August 2017 in A Coruña (Spain)

ONLINE TRAINING ON DIGITAL COMPETENCES (IO4)

DCTest project offers 120 vacancies to follow an Online Training on Digital Competences.
The training lasts between 80 and 140 hours at the basic, intermediate and advance level,
and it expects to be a tool to improve youth opportunities in the labour market.
The course will start on 20 March and it will be available in English, Spanish and Turkish
(registrations open until 30 April).

E-LEARNING PLATFORM

The E-learning Platform is a tool to test the digital competences training material and it is divided in three different sections:

- Partner area
- Trainers area
- Trainees area

The Welcome course is already available and the rest of lessons will be published soon.

NEXT WORK STEPS

1. Test the Online Training on Digital Competences for Learners (O4) and disseminate the course among young people interested in improving their skills.

2. Methodological Guide Handbook (O5),which will facilitate the trainers' work: it will include online training methods; objectives of the DCTest course; how to study and evaluate online and communication channels between tutors and participants.

3. Final Digital Competence Certificate (O6), which will show the participant's level and his/her learning outcomes.

DC TEST

Welcome to the online training platform / DC TEST

What is DCTEST project?

My courses

✧ 1. TRAINING FOR TRAINERS

THANK YOU TO OUR TRAINERS !!

DCTest team would like to thank to the participants who have taken part and finished the Online Training of Trainers on Digital Competences (IO3).

We welcome them to review the material for the Online Training for Learners (IO4): the content is available in our website http://www.dctest.org/documents.html in the section "Documents" and we encourage trainers to use and disseminate the material for educative purposes. The access to the e-learning platform is free, you just need to contact us to the follow email to be provided with an user and password: manager@integracoruna.com
